Yes No

If yes, please provide your Reference Number DPS 122

SECTION D: YOUR COUNTER REPRESENTATION

In accordance with Regulation 18 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, any person may make a counter representation in relation to a representation seeking change to a Development Plan Document (DPD). The purpose of a counter representation is to provide an opportunity to respond to proposed changes to the DPD as a result of representations submitted under Regulation 16 of The Planning (Local Development Plan) Regulations (Northern Ireland) 2015.

A counter representation must not propose any further changes to a DPD.

Please provide the reference number of the site-specific representation to which your counter representation relates. If you wish to make a counter representation to more than one representation, please complete a separate sheet for each counter representation you wish to make.

DPS 118 - McCreedy Architects ref Derriaghy Road Lisburn

Your counter representation must relate to a site-specific representation made to the Lisburn & Castlereagh City Council draft Plan Strategy.

Please give reasons for your counter representation having particular regard to the soundness test(s) identified in the Department for Infrastructure’s Development Plan Practice Note 06 Soundness.

Please note your counter representation must not propose any new changes to the draft Plan Strategy. It should be submitted in full and cover succinctly all the information, evidence, and any supporting information necessary to support/justify your submission.

The representation DPS 118 advocates the necessary and even growth across the plan villages and small settlements and refers to imbalance of housing towards West Lisburn and the allocation towards Lisburn at the expense of these rural settlements. It sets out how Milltown is an attractive location for a limited number of large dwellings and my client is fully supportive in this respect of DPS 118.

However, while my client agrees that the controlled growth of the village of Milltown is necessary, it disagrees that the proposed extension as set out in DPS – 118 is the most appropriate location for that growth. The objector suggests it will provide a natural extension to Milltown by rounding of and will allow the village to grow naturally while containing its existing features but this land is sited in an elevated position, with its designation within the Local Landscape Policy Area MN 06 on this basis.

While the SLNCI alongside the river can be protected and accommodated within any future layout, the landscape wedge and proximity to the industrial heritage site to the north east (spade foundary site ref IHR 07434:000:00) are obstacles to development within this eastern side of Milltown. If the village is to retain it's more rural character it is essential that it is not consumed by the Belfast metropolitan area conurbation and the wedge provides a vital function in preventing that coalescence.
