Text Alert Scheme

CALL THE POLICE **101**

IN AN EMERGENCY ALWAYS CALL 999

Text Alert is used to get short, immediate messages out to registered users who have an interest in helping PSNI and PCSP to reduce crime and help keep the community in which they live or work safer.

CALL THE POLICE 101
IN AN EMERGENCY ALWAYS CALL 999

A key challenge facing Lisburn & Castlereagh PSNI and Lisburn & Castlereagh PCSP is how they engage and communicate better with the communities they serve.

The PCSP and PSNI have listened to the concerns of the community and acknowledge that the Text Alert Scheme is an important method of communication.

Not all citizens have access to or are comfortable with social networking platforms which many statutory, voluntary and community organisations now use to deliver key messages and information to their members.

The PCSP in conjunction with their colleagues in the PSNI have developed a Text Alert system which will allow them to communicate directly with citizens of Lisburn & Castlereagh City Council who sign up for the scheme by SMS text message almost instantaneously if there is an issue in their area.

What is Text Alert used for:

Members of Lisburn & Castlereagh Text Alert Scheme will receive an SMS message to their mobile phone with community safety information relevant to their area.

Text Alert is used to get short, immediate messages out to registered users who have an interest in helping PSNI and PCSP to reduce crime and help keep the community in which they live or work safer.

Text Alert can also be used to remind them of dangerous road conditions, suspicious vehicles, ongoing crime issues in the registered users particular area.

Registered users will only receive a Text message from Lisburn & Castlereagh PCSP or the PSNI.

Your personal details including mobile number will not be shared with any other external body or organisation. Your information will be held securely by two named data controllers from Lisburn & Castlereagh PCSP and the PSNI.
